

Canoe Kids

Teach Us With Culture & We Can Learn

Exploring Indigenous Cultures Through Authentic Indigenous Voices

Canoe Kids is an ongoing project that will produce 24 volumes when complete. The series commenced in Jan 2016 and will be completed in 2024. The Canoe Kids team embeds with Indigenous communities to learn about culture and the environment from the perspective of the best caretakers of the earth. Volumes are primarily North America based but also include Central and South America, Finland, New Zealand and Ireland. Volume 3 has just been released.

Canoe Kids is equal parts cultural and environmental exploration

Volumes range from 140 to 190 pages and are filled with full colour hi-res photos, original artwork and stories about and by the featured culture. Canoe Kids is equal parts cultural and environmental.

There has been an awakening of interest for authentic resources that are informative and empowering. Canoe Kids spends months with each featured People and takes the time to listen, learn, and explore the culture, land and waters of the communities. Each volume is filled with stories of and by the People. Canoe Kids allows the reader to get to know the People first hand and through the hundreds of pictures feel like they have been there with the Canoe Kids Team.

Canoe Kids is an ***ideal ongoing resource*** for teachers and is well received in all libraries. Articles are organized and developed so that there are materials for every age group, grade level, subject and interest.

K through 3 use Canoe Kids to read beautiful and ancient stories including The Drum Story and The Trappers Story. There is beautiful original art to explore and a Kids Zone with puzzles, word searches, colouring, cutouts and more. Mid grades use the materials to study the culture, food and wildlife of the featured cultures. Grades 8 through 12 use stories that are more in depth from Dr. David Suzuki about the environment and there are discussion articles about living well and properly with Mother Nature as well as articles about the history and geography of the featured People.

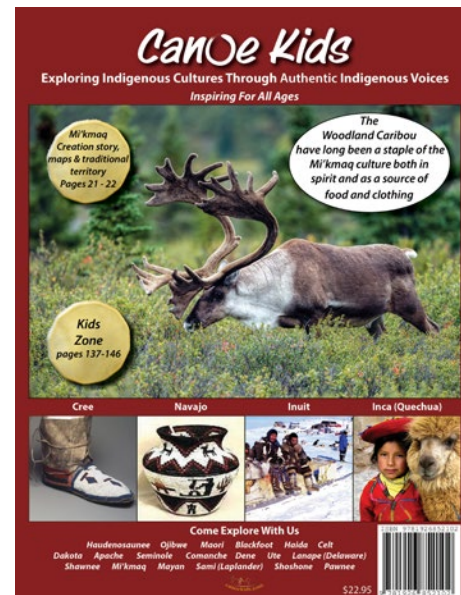

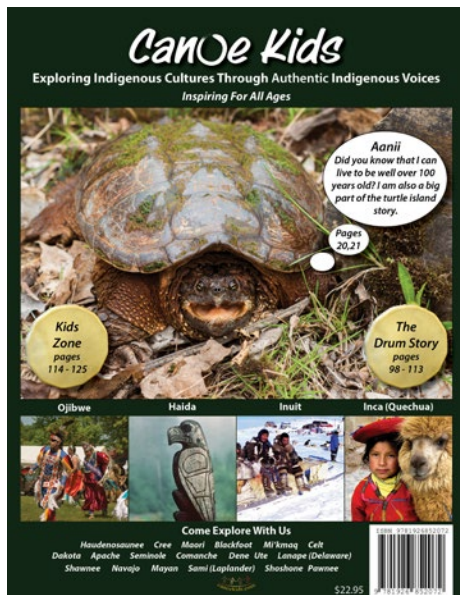

Canoe Kids is inspiring for all ages and interests

Canoe Kids

Come Explore With Us

Informative and Empowering

Canoe Kids is created in cooperation with Indigenous communities, a writing and design team from Canoe Kids and focus groups of teachers, librarians environmentalists and adventurers.

The Canoe Kids guiding principles are:

1. Be authentic and inclusive
2. Be accurate in telling the stories of individuals and communities as experienced by the Canoe Kids Team
3. Be reflective and respectful of the history and culture of the People and communities
4. Be willing to allow each volume to develop organically and at the communities pace not ours
